- Responsible for leading the frontend team & implementing video gallery functionality
- Made with React.js, Node, Express, Passport.js, Firebase, MongoDB & Heroku

Employee Directory | Repo: https://github.com/roccolosito/react-employee-directory |
Deployed: https://hidden-dusk-74243.herokuapp.com/
- React-based app allowing a user to search & filter through a vast user directory
- Responsible for the entire frontend, backend, and styling design
- Made with React.js, Node, Express, Random User API, MongoDB & Heroku

WORK HISTORY

Unqork (New York, NY) | Associate Application Engineer | 2022-Present
- Configure and build applications (including APIs) in Unqork to solve complex use cases for my assigned clients — Dai-ichi Life Insurance and CVS, to name a couple.
- Write script in JavaScript, Angular, HTML, and CSS to accommodate configuration edge cases in the Unqork platform.
- Develop unit tests to supplement handoff to QA.
- Adhere to Unqork's agile framework and configuration best practices.
- Use various productivity tools to track sprint work, build wireframes, and communicate with stakeholders (Jira, Zendesk, Atlassian suite, G-suite, Lucidchart, Slack, Zoom, and more)
- Certified Unqork Associate Configurator and Unqork Agile Framework (UAF) certified

Unqork (New York, NY) | Associate Production Support Engineer, Global Support Services | 2021-2022
- Triage application architecture issues via various database programs and methods, such as MongoDB, DataDog, NoSQL, Studio3T, regression testing, configuration analysis, and proofs of concept.
- Creator of the Analyze-Data Operations Knowledge Pod, the source of truth for data and config analysis at Unqork.
- Maintain external and internal client relations and communications via JIRA and ZenDesk.
- Create onboarding labs and mentor and train incoming support engineers for our team.

Coda Real Estate (Brooklyn, NY) | Managing Agent & Associate Real Estate Broker | 2013-Present

- Spearhead all marketing for the entire property inventory and train all new and existing salespersons.
- Manage property listings inventory—providing weekly listing updates and liaising with company clients and landlords to maintain relationships.
- Broker residential and commercial sales and rentals in New York City.

Sony/ATV Music Publishing (New York, NY) | Manager, Global Administration | 2007-2013

- Assisted in developing, testing, and maintaining software systems to manage company copyright assets, now used by over 1,200 employees worldwide.
- Participated in developing an internal and external asset ownership reporting tool, cutting department reporting time by 98%.
- Trained a 40+ employee department in using 10 data management systems.
- Managed high-volume, short-deadline special research projects for high-profile legal proceedings and various third-party clients, including external auditors, media outlets, and licensing partners.
- Audited company royalty statements to rectify discrepant accounts and ensure payment accuracy.
- Worked with the corporate legal team to review and revise client agreements.
- Streamlined inter-departmental communications by instituting a comprehensive system to track changes made to songwriter agreements.
- Distributed notifications of songwriter agreements to over 30 global affiliates, domestic rights societies, and record labels.
- Communicated directly with songwriters to advise about royalty statements and maintain company-client relations.
- Oversaw and provided training for a team of departmental coordinators, temporary staff, and interns.

EDUCATION

Georgia Tech | Master of Science: Computer Science | Expected Completion: May 2024

- Currently enrolled in the online Master's program with the Georgia Tech College of Computing

Columbia University | Coding Certificate, Full Stack Web Development | 2020

- Coursework: HTML5, CSS, React.js, JQuery, JavaScript, Bootstrap, AJAX, MySQL, MongoDB, Express, Node, Handlebars, Firebase, Webpack, Heroku, Passport.js, MERN

New York University | Bachelor of Arts: Music Business | 2004-2007

- Coursework: Music Publishing, Audio for Video, Concert Management, Aural Composition, Foundations of Financial Markets, Calculus, Microeconomics, and more

ORGANIZATIONS

The American Society for the Prevention of Cruelty to Animals (ASPCA) | 2008-Present

- Member and ASCPA Guardian.

Arkansas Young Artists Association | 2000-2002

- Visual artist nominated for state-wide competitions in Arkansas.

MUSIC

Guitarist & Composer | 1998-Present

- Songwriting, live performance, film scoring, recording, and production (Logic, Pro Tools, Garage Band).
- Formal training in classical guitar and piano.
